Role: Trustee
Key responsibilities: Governance, community consultation

Why are you involved:

Throughout my life I have strived to achieve excellence in any discipline I have attempted, for example, to the point where I am now (unofficially) the second-highest ranked female squash referee in the world. This is also evident in the growth and success of the two pharmacy businesses which places me in the position of successful and well-known business-woman within the community.

It is extremely important to me to maintain a position of integrity, trust and independence. I firmly believe my roles of employer, medications expert, JP and referee rely on strong ethical and moral standards, as well as the ability to build effective relationships with key personnel.
