

Cromwell Cultural Centre Trust Trustee Biography

Name: Jessie Sutherland

Role: Trustee
Key responsibilities: Building, Community Consultation, Governance

Why are you involved: I see the need in Cromwell for a public venue that celebrates our special location and community. This project has the opportunity to create a place that enhances our community and connection to our waterfront. I am excited about the future, and keen to get this venue built and being used.

I was born in Cromwell and completed College here, after university and working in Wellington, my husband and I lived in England and Australia where I worked on some exciting architecture projects. We returned with two young boys in 2016 and love being home. I am proud to be involved in this community project.
